**Total \$46,988,099**

### TriHealth Good Samaritan Hospital

Outreach targeted to low income	\$41,671,120
Outreach targeted to the broader community	\$34,240,104

**Total \$75,911,224**

### McCullough-Hyde Memorial Hospital | TriHealth

Outreach targeted to low income	\$4,200,702
Outreach targeted to the broader community	\$135,867

**Total \$4,336,569**

**Total for all hospitals \$127,235,892**

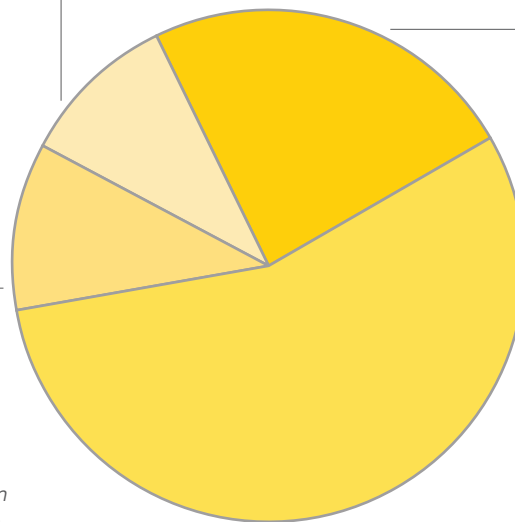

## How we helped our community live better

### Non-billed and subsidized health services, cash and in-kind donations, and community building \$13,709,638

Costs of services that are subsidized or free and offered because they fill a need in the community. Donations of cash, equipment, supplies or team member time on behalf of the community.

### Traditional charity care \$12,536,829

Costs of free or discounted services for people unable to pay because they are poor, they do not have adequate insurance or their care is beyond their financial capabilities. Includes some services provided at the Good Samaritan Hospital Faculty Medical Center and the Bethesda OB-GYN Center.

### Medical education and research \$30,252,229

Costs of training health care professionals within TriHealth and throughout the community, such as resident physicians studying obstetrics/gynecology, internal medicine, family practice and surgery.

### Unpaid cost of public programs \$70,737,196

Difference between actual cost of care and reimbursement provided for patients with Medicaid and other public programs, not including Medicare.
