

We Are Going to the Doctor!

Bethesda Family Practice
Social Story

The Office

We are going to the doctor's office! It is nice to go to the doctor because they can help us feel well and stay healthy. The office has big glass doors and red bricks outside.

Walking In

We will go through some more doors and into the waiting room. First we will say “hello” to some nice people at the front desk and then we can wait in a chair.

The Waiting Room

In the waiting room we can play with some toys or read some books!

Time to See The Doctor!

Somebody will come and open the door and call my name and then we will go into the office! First we will stop and stand on a scale and then put our back on the wall to see how tall I am. It doesn't hurt and the nurses are all very nice.

The Hallway

Next we will all walk down the hallway together and find a room to sit in. It looks very long!

Our Room

We will all go to our room and talk with one of the medical assistants.

My Doctor

The medical assistant will leave and we will talk to our doctor. Then the doctor will check me and soon we can leave.

All Done

Everybody is happy that you came to the doctor today!
