

Welcome!

Thank you for choosing the TriHealth Fitness & Health Pavilion! We appreciate the opportunity to assist your efforts toward better health and fitness. We pledge to provide you with everything you expect from a fitness and wellness center:

- A clean and well maintained facility
 - Properly maintained exercise equipment
 - A professionally trained and certified staff
 - Quality programs and services
-

If you have any questions or concerns now or in the future, please visit with any of our Pavilion team members. The following policies have been developed to ensure a safe, fun and comfortable environment for all members and guests. We hope you will take a moment to review them, share them with any family members and keep them handy for future reference. **The Pavilion reserves the right to amend policies as deemed necessary.**

General Rules

- The TriHealth Pavilion is meant to be a place of enjoyment for members. Therefore, all members should treat each other with respect and expect to be treated as such by others. Non-observance of the above may result in temporary exclusion or curtailment of membership privileges.
- All members use the Pavilion at their own risks. The Pavilion is not held responsible for any pre-existing conditions, athletic injuries or other injuries sustained while using the facilities of the club. Physician consent to commence an exercise program is strongly encouraged and in some instances, required.
- The use of all facilities is subject to posted rules and policies established by Pavilion Management. The rules contained herein are not inclusive. Amendments to the Pavilion Member Guidelines may be made at any time as deemed necessary. On all questions regarding the interpretation of Pavilion Member Guidelines, the decision of the Pavilion Management is final.
- As a proponent of healthy lifestyles and preventive health care, our environment is **smoke-free**. Smoking is not allowed on Pavilion property.
- Proper etiquette, language and courtesy are to be observed at all times. This includes following time restrictions on equipment or facilities where applicable.
- A member's obligation to pay monthly dues is not dependent on the availability of the Pavilion's facilities or equipment. Sport leagues, seminars, repairs, rentals and/or maintenance of the facilities may make it necessary for the Pavilion to restrict use of one or more of the facilities or to temporarily close the Pavilion, which will not reduce or suspend a membership obligation for payment of dues. It is our intent to notify members of these situations as far in advance as possible.
- All programs and services end at center closing time each day: the fitness floor, locker rooms, including whirlpools, steam rooms and saunas. Pools will close 15 minutes prior to facility closing to allow members time to exit the facility by closing time. (The outdoor pool will close 15 minutes prior to when the center closes, on the weekends only).
- **No photographs are permitted to be taken anywhere at or on the property of the TriHealth Fitness & Health Pavilion without advanced authorization from management.**

Membership

General Information

- It shall be the policy of the TriHealth Fitness & Health Pavilion to accept applications for membership from any person or business of good character and responsible credit background without regard to race, creed, color, sex or national origin.
 - Members must contact a Member Services Representative to add or drop individuals from membership or if membership status changes such as senior or corporate membership eligibility. Additional enrollment fees will be required when adding family members.
 - Dependent children on their parent's membership can remain family members with their parents through age 21. If the child is a full time student and provides proof of their student status, they can remain on the family membership up to the age of 24 years old. When the child becomes 24 years old, that child will be required to establish their own membership account. No enrollment fee will be charged to convert to this new membership account.
 - Grandparents are eligible to add their grandchild(ren) to their membership accounts up through age 21, or through age 24 when they provide proof of full time student status. Applicable membership enrollment, processing fees and monthly membership dues will apply. In addition, if the grandparent is the legal guardian of the child, the grandparents will be required to provide their signature on the membership change form, as well as provide a copy of proof of their legal guardianship, if the grandparents are indeed the legal guardian of the child(ren). If the grandparents **are not** the legal guardian of the child(ren), they will be required to obtain an original signature from the child(ren)'s parents who are legal guardians of the child(ren).
 - Couples can join on the same membership account if they share a joint mortgage or a joint checking account, **or** they are legally married. Membership dues must be drafted from one account or credit card. Current Pavilion members who experience a change in status as indicated above, need to provide proof of documents to Member Services. If current members are paying a different membership rate, a refund will only be given for the current month membership dues when the appropriate documentation is provided.
 - Senior membership discounts begin at age 65. It is the **member's responsibility** to notify the Member Services office when a family member turns 65 and is eligible for the senior rate. Refunds will not be given for late notice.
 - For membership records and mailing purposes, members are required to notify the Pavilion of address, phone, name and/or credit card/banking changes and email changes with an approved signature.
 - **Dues will be withdrawn the fifth of the month.** If the tenth falls on a weekend or holiday, the monthly dues transaction will take place on the first business day following the tenth.
 - Paid in advance membership options are available for six months or 12 months paid in full.
 - **A \$35 service charge will be assessed for a returned check or credit card transaction due to insufficient funds, closed account, unavailable credit line or other similar circumstances.** If you have a lost or stolen credit card, please notify us immediately to change billing process and avoid service charges.
 - Dues are subject to adjustment by management with written notice to the membership.
 - Memberships are not transferable.
 - The Pavilion is not responsible for lost or stolen, damaged items in facility or on grounds. Please keep your valuables at home.
- ## Membership Cards
- Membership cards must be presented for admission to the Pavilion and Kids' Life Center and are necessary for daily locker entry.
 - Replacement of a lost, stolen or destroyed membership card will require a \$6 replacement fee. A Member Services Representative should be notified when a new card is needed.
- Membership can be placed on a Temporary Leave of Absence(hold) one month prior for the following Reasons:**

Continued on back

- **A medical leave of absence** requires a physician's note documenting the reason for the leave and the amount of time the leave needs to be. A physician release form and an updated Health History form is also required for member to return from leave and resume exercise indicating any restrictions. There is no charge for the medical leave of absence.
- **A work-related leave of absence** requires a notice from the member's employer stating that you will be out of the area for business reasons. This leave is restricted to a time period of two months through six months and is subject to a fee.
- **A leave of absence for extended vacation** requires that the member submit a forwarding address. This leave is also restricted to a time period of two months to six months and is subject to a fee.
- **The college leave of absence** is restricted to a time period of two months to nine months and is also subject to a one time \$30 fee per individual per academic school year. The college leave requires proof of school enrollment.

All members are required to fill out a Leave of Absence form at the Member Services office in order to activate a "frozen membership" status. You will receive a duplicate copy of the Leave of Absence form for your records.

Leave of Absences can not be backdated.

Leave of Absence forms submitted after the 25th of a given month will not take effect until the last day of the next month due to the timing of the EFT process.

Upon return from a Leave of Absence, the member must stop in the Member Services office, although billing will begin automatically on the designated date given at the time the leave is first processed. There is no charge to reactivate your membership and unlike a reinstatement from Resignation, no enrollment fee is charged upon a reactivation from Leave of Absence.

- After 15 minutes, additional lanes will not be given to class for late participants.
- Aquatic group fitness classes hold priority for lane usage during class time. However, please allow other pool users

time to finish their workouts before entering the pool. Entrance into the pool is permitted no more than 5 minutes prior to the beginning of class when the lane is already in use.

Warm Water Therapy Pool Policies

Same policies as Main Lap Pool except:

- There is not a lifeguard on duty at the warm water pool. This is a "swim at your own risk" pool.
- All members and guests will share the pool in a courteous and friendly manner. People have many different medical needs and issues that you may not be aware of so please be considerate; no touching, pushing or splashing to move people out of the way. If you have an issue with another member, address it with the lifeguard, who will call a manager on duty to address this issue.
- The Aquatic Exercise Association and TriHealth management recommend no more than ten participants per lane for your safety.
- If one encounters an emergency in the WW Pool, please contact the lifeguard in the Main Pool for assistance immediately. You may yell or go over to the guard. The lifeguard will clear the main pool and assist as needed.

Water temperature ranges:

Warm Water Pool, 88-90°
25 Meter Lap Pool, 80-82°

- The warm water pool is designated to serve the following
Continued on back

- purposes: **1)** Physical Therapy (one on one with a physical therapist), **2)** therapeutic group exercise classes, **3)** private swim lessons, for ages 3 months and older, and **4)** individuals performing exercises of a therapeutic nature. However, ten hours per week, nine months per year, out of 110 total hours of availability will be reserved for family swim. Although the warm water pool is primarily for therapeutic exercise and therapy, in order to encourage youth participation and family enjoyment, also in keeping with our mission, family swims will be programmed and times announced well in advance on our pool schedules and via our website.
- Participants will be required to share lanes during busy periods. Due to the popularity of the warm water pool and limited space in lanes, please respect all participants. Lane sharing is required for all pool users at all times. No more than 2 swimmers in the middle lane. Please wait your turn. Individuals remaining stationary in a lane must move to the side to allow those moving in lanes access to the full lane. It is unreasonable and cannot be expected that one individual will reserve an entire lane for their therapeutic exercise when others are present seeking to participate in their own exercise program.
 - Participants with no medical issues should use the Main Pool or Lap Pool for lap swimming. However, please understand that there are individuals with health issues who may benefit from limited swimming in the warm water pool. Lap swimming in the warm water pool will be **limited to 45 minutes** due to the limited space provided in lanes and the number of individuals utilizing the warm water pool. **Lap swimming will no longer be permitted in the Warm Water Pool during class times.**
 - One lane will always be kept open for therapeutic exercisers. This means during class times, the main part or big area is considered a lane and non-water fitness participants may be asked to move to accommodate the scheduled class. During scheduled private swim lesson times, the instructor will try to be flexible with the areas they use during their lesson. During physical therapy time, physical therapists and their patients have priority in the use of the pool.
 - Our policies and procedures are designed to meet the needs of as many individuals as possible in any given hour. Our scheduled group classes will have precedence over individual exercisers which means individuals must adjust their workout to meet the needs of the larger group. There may be a time during very full classes that you may not have the space needed for your workout. We recommend that you avoid our class times for your individual workouts or better yet, join the class!
 - There are some members or guests that have medical needs and prefer to have a workout horizontally (swimming) as opposed to vertically (which is water walking or water running). Although both types of workouts are allowed in the pool, we do encourage you to swim laps in the Main Pool. You may need to adjust your own private workouts depending on needs of your fellow members. We ask that you work it out together, politely so that everyone's experience is a positive one.
 - All family swims and private swim lessons will be held in the outdoor pool when it is open with the exception of inclement weather.
 - There will be no other programming allowed in the WW Pool unless it is approved by the Aquatics Department. Please read the bulletin boards for the most current

programming changes.

- All aquatics concerns or issues need to be addressed directly with the Aquatics Department:
- Aquatics Supervisor, 513 246 2630.
- Keep pool equipment clear of walkways and put the equipment away when finished using.
