

Dr. Asimul Ansari, MD

Asimul Ansari, MD is the Medical Director of Advanced Cardiac Imaging for the TriHealth Heart & Vascular Institute and Medical Director of Cardiology for TriHealth Physician Partners. He is passionate about progressing the prevention, diagnosis, and treatment of heart disease.

Dr. Ansari's interest and expertise in advanced cardiac imaging allow him to utilize the latest technologies to accurately diagnose disease and develop individualized treatment plans. He marries cardiac MRI, CT and echocardiography with leading edge technologies to provide the highest quality outcomes for his patients. He also specializes in transesophageal echo imaging during minimally invasive surgery for TriHealth's Structural Heart program.

While diagnosing and treating all aspects of heart disease in adult patients, he has particular interest in valvular heart disease, structural heart procedures, ICU care, and coronary artery disease.

Dr. Ansari mentors and teaches medical residents and consults with internal medicine and family practice physicians to educate them on aspects of cardiology and cardiac imaging that will further their ability to care for patients.

Among medical colleagues and patients alike, Dr. Ansari promotes collaborative relationships. He believes that working together helps ensure the highest quality of life possible for every patient. Dr. Ansari has been publicly recognized for his excellence, named a Top Doctor by Cincinnati Magazine consecutively from 2016 to 2023.
