

Kamal Shemisa MD, FACP, FACC, FAHA, FASE, CLS, is a general Cardiologist, Diplomate of the American Board of Clinical Lipidology, Director of Noninvasive Cardiovascular Testing at TriHealth, Director of the TriHealth Heart Institute Lipid Clinic, Co-director of GSH Heart Failure Clinic, and Good Samaritan Hospital Internal Medicine Residency Clinical Instructor. Coming from a medical family, Kamal Shemisa, MD, discovered a love for studying the complexities of the human body at a young age. He was selected for a BSMD program at Kent State, an accelerated program that combines undergraduate studies with medical school. He graduated from the Northeast Ohio Medical University in 2008. He is board certified in Internal Medicine (2013) and Cardiovascular Disease (2017). He specializes in cardio-oncology, cardiology and lipidology.

Dr. Shemisa was attracted to the technology developments in cardiology, especially in imaging that allows physicians to appropriately diagnose cardiovascular disease, accurately risk-predict future events and make important decisions in emergencies. He's excited about the ongoing innovations in cardiology and the ability to make a real difference in people's lives. These include tele-monitoring as well as novel therapeutics in heart failure, stable coronary disease, and lipid disease management.

Married to a breast imaging radiologist, Dr. Shemisa enjoys travel, theater, nature and playing tennis and chess.
