

**Dr. Jacob Williams, MD, physiatrist, and Medical Director of Stroke Rehabilitation** for TriHealth joined TriHealth in 2022. He chose to specialize in physical medicine and rehabilitation because of the focus on function and functional goals. As a physiatrist, Dr. Jacob Williams diagnoses and treats medical conditions affecting the brain, spine, nerves, bones, joints, ligaments, muscles, and tendons. Currently, he provides care at the TriHealth Rehabilitation Hospital and provides outpatient care throughout the greater Cincinnati area. He has a special interest in stroke rehabilitation including the treatment of muscle spasticity, and vagal nerve stimulation. To achieve great results with his patients, he believes in getting to know his patients and their goals to design comprehensive and personalized treatment plans that specifically work for them. A native of Cleveland, OH, Dr. Williams is married. He enjoys cooking, cycling, and hiking with his dog.
