

Chengyuan (Alex) Feng, MD, PhD

Chengyuan (Alex) Feng, MD, PhD, is a board-certified neurologist, registered physician in neurovascular interpretation, and adjunct clinical assistant professor at Ohio University. He joined TriHealth in 2023 as a neurointensivist and a member of the STANSE team.

Dr. Feng earned his medical degree from Xiangya School of Medicine at Central South University in China and completed his neurology residency at Loma Linda University in California. During residency, he served as Academic Chief Resident and received both the Excellence in Education Award from Loma Linda University and a Resident Scholarship from the American Academy of Neurology. He went on to complete a neurocritical care fellowship at Johns Hopkins University in Maryland.

In addition to his clinical training, Dr. Feng holds a PhD in neuroscience and completed postdoctoral training at the University of Nevada, Reno. He has authored more than 20 peer-reviewed journal articles.

Outside of work, Dr. Feng enjoys hiking, boxing, and spending time with his family.
