

Dermatology – alternatives for excisions

Some excisions that might normally be referred to a TriHealth dermatologist may also be treated by another TriHealth specialist when wait times become an issue or if the patient's primary care is not a TriHealth/TPHO physician.

Conditions to be referred

- Abscess
- Cyst
- Lipomas
- Lump on breast/neck
- Melanoma
- Pilonidal cysts
- Scar excisions
- Skin tag
- Soft tissue masses
